Attorney's Docket No.: 06501-039001 / J1-802PCT-US

Replace the paragraph beginning at page 74, line 24 with the following rewritten paragraph:

C3 ¶ Figure 11 shows the homology among amino acid sequences and conservation state of motifs in "human JTT-1 antigen," "human CD28 molecule", and "human CTLA-4 molecule" (SEQ ID NO:2, 25, and 26, respectively) (the consensus sequence is listed as SEQ ID NO:17).

Replace the paragraph beginning at page 75, line 1 with the following rewritten paragraph:

C4 ¶ Figure 14 shows the difference in amino acid sequences between "rat JTT-1 antigen" and its alternative splicing mutant (SEQ ID NOs:13 and 15, respectively) (the consensus sequence is listed as SEQ ID NO:23).
